

## Budget

### Part 1 –Annual Budget

#### 1.1 Mayor's Report

Nkonkobe Municipality's Mayor in his 2011 Budget speech said, "There is a need to identify poverty stricken areas in the jurisdiction of Nkonkobe and declare them as such and devote our attention to that with a view to ameliorate the situation. It is no fair when the few of us drive fancy cars while communities are starving. We must devise strategies to alleviate poverty. Working together we can defeat poverty".

He also alluded to the fact that the municipality is facing a myriad of challenges that require intervention for all involved, these include:

- Thin revenue base that leads to grants dependence which is impacting negatively to speedy service delivery.
- Long outstanding debtors with huge balances remain a daunting challenge.
- The Valuation Roll that negatively impact on our billing.
- Insufficient grants allocated to the municipality to address backlogs in service delivery.

In the Annual Report for the financial year 2011 the municipality made tremendous strides in settling debts that relate to Development Bank of South Africa and Wesbank and it is procuring assets on cash basis. The municipality prides itself to be a municipality that is financially viable wherein revenue collection have sky rocketed from R 800,000 per month to more than R 3 million. The municipality has successfully built community halls and other infrastructural projects from its own revenue. We have also established a technical unit in order to enhance service delivery and minimize tenders wherein projects will be done in-house through this unit. This unit is entrusted with a responsibility to construct roads, build community halls and day care centres. In order to achieve this objective we bought graders, tipper trucks, low bed truck, TLB and the like. Although Nkonkobe municipality is a large and rural area with the plant that we have acquired an amount of R1,7m is set aside to buy more plant and equipment, we believe we will achieve a lot in making sure that our roads are in good condition and accessible to our people. In addition, through this unit we created jobs by recruiting bricklayers, plumbers, grader operators, artisans and carpenters. An amount of R13,5m has been set aside for re-gravelling and paving internal streets in both urban and rural areas.

The municipality has also moved from a disclaimer to a qualified report. This is a tremendous improvement for a municipality that have been receiving disclaimer since its establishment. He

further commended the Councilors, Audit committee, Internal Audit unit and managers led by municipal manager for this achievement.

### **Vision 2030**

The municipality in trying to link its budget to the priorities as set out in the National government vision 2030 has budgeted an amount of R 4 million to fund its Expanded Public Works Program so as to create job opportunities, over and above this amount the program will be linked to other infrastructural projects such as MIG and Internally funded capital projects which totals to R 45,1m. R 8m is budgeted to repair the infrastructure of the municipality.

Infrastructural development is key to creating jobs and boosting the economy in South Africa. This was confirmed by his Excellency President J.G. Zuma in his state of the Nation Address. To this end the municipality has built a number of community halls in various villages and townships, a R10m Middledrift Multi-purpose centre is underway and a Council Chamber in Alice is underway. The municipality will also erect a park in Alice and a Sport complex in Fort Beaufort. In the year 2012/13 we are planning to refurbish municipal offices in Fort Beaufort. Paving of the street in-front of municipal offices in Fort Beaufort is underway. Surfacing of Fort Beaufort town will be done this financial year at an amount of R5,478,786.

A further R10m is set aside for the provision of Indigent Subsidy to consumers i.e. Refuse, Electricity and Alternative Energy (Paraffin). The total number of 22,079 indigent households are benefitting from Free Basic Energy. By the end of this financial year an amount of R1m will have been spent on alternative energy (Paraffin) benefitting 1300 indigent households who live in areas where there is no electricity yet. A further 3,380 households get free refuse removal. The municipality continuously encourages all indigents who qualify to come to the municipal offices and register so as to benefit from this service.

“Dynamite comes in small packages”

“We will reap only when we sow”

Honourable Mayor Cllr A.W. Ntsangani

### **Council Resolutions**

On 30 March 2012 the Council of Nkonkobe Municipality met in the Council Chambers of the municipality in Alice to table the Draft Annual Budget for the financial year 2012/13. The Council approved and adopted the following resolutions:

4. To give proper effect to the municipality's annual budget, the Council of Nkonkobe Municipality approves;
  - 4.1 The cash backing is implemented through the utilization of a portion of the revenue generated from property rates to ensure that all capital reserves and provisions, unspent long term loans and unspent conditional grants are cashed backed as required in terms of the municipality's funding and reserves policy as prescribed by section 8 of the Municipal budget and Reporting Regulations;
  - 4.2 That the municipality be permitted to enter into long-term loans for the funding of the capital programmes in respect of the 2011/12 financial year limited to an amount of R1

billion per financial year of the MTREF in terms of Section 46 of the Municipal Finance Management Act.

4.3 That the Municipal Manager be authorized to sign all necessary agreements and documents to give effect to the above lending programme.

## **1.2 Executive Summary**

The application of sound financial management principles for the compilation of the municipality's financial plan is essential and critical to ensure that the municipality remains viable and that the municipality services are provided sustainable, economically and equitable to all communities.

The municipalities business and service delivery priorities were reviewed as part of this year's planning and budget process. Wherein mission and vision, was changed to address the challenges currently facing the municipality. Appropriate funds were transferred from low to high priority programmes so as to maintain a sound financial stewardship.

The municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers including the amount owed by Department of Public Works, Amatole District municipality and businesses and households.

National Treasury's MFMA Circular 51, 54 and 55 were used to guide the compilation of the 2012/13 MTREF.

The main challenges experienced during the compilation of the 2012/13 MTREF can be summarized as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained roads and electricity infrastructure;
- The need to reprioritize projects and expenditure within the available funds given the unlimited nature of needs and limited funding available to the municipality;
- The increased cost of bulk water and electricity (due to tariff increase from Amatole District Municipality and Eskom), which is placing upward pressure on service tariffs to residents;
- Wage increases for municipal staff that continue to exceed consumer inflation as well as the need to fill vacancies;
- Availability of affordable capital borrowing to finance capital projects to enhance service delivery

The following budget principles and guidelines directly informed the compilation of the 2012/13 MTREF:

- The 2011/12 Adjustment Budget priorities and targets, as well as the base line allocations contained in the Adjustment Budget were adopted as the upper limits for the baselines for the 2012/13 annual budget;
- Tariff and property rate increases should be linked to CPI and be in line with Municipal property Rates Act
- Increase is based on percentage of collection in the current year (Section 18 of the MFMA);

- Budget must be Cash Funded meaning only realistically anticipated revenues should be committed;
- Guided by MFMA Act 56 of 2003, section 16 to 24 and MFMA circulars: 12;42;48;51;54;55 and 58;
- Also guided by Property rates Act, Municipal structures and systems Act (no 117 of 1998 and no 32 of 2000 respectively);
- Annual Division of Revenue Act;
- Municipal Budget and Reporting Regulations(Government Gazette 32141);
- Municipal Fiscal Powers and Functions Act(No 12 of 2007);
- Local Government Capital Asset Management Guideline;
- The budget was prepared on the Incremental/ line item budgeting method for all existing priorities and Zero- based budgeting method on all new priorities.
